OPEN TO OPPORTUNITIES

Emmanuel Asiedu

Oil & Gas Engineer • Reliability Strategist
Data-Driven Operations Leader • Energy Transition Advocate

[Explore My Work](#) [Download CV](#)
Accra, Ghana
Willing to relocate / travel extensively

My Engineering Philosophy

I don't just maintain energy systems — I engineer them for peak reliability, regulatory excellence, and sustainable long-term impact.

With deep expertise spanning downstream petroleum operations, heavy-duty machinery integrity and lubrication programs, fuel logistics management, and regulatory compliance, I combine hands-on field leadership with advanced digital tools to transform complex operational challenges into measurable results.

My unique edge lies in bridging traditional engineering rigor with modern data intelligence (MySQL, Power BI) and Ghana's energy transition agenda — delivering solutions that improve equipment uptime, strengthen compliance, optimize resources, and contribute to national sustainability goals.

CORE BELIEF

Data + Engineering = Sustainable Impact

APPROACH

Reliability-first mindset with digital transformation

MISSION

Building resilient, efficient, and future-proof energy systems

Professional Background

Hands-on leadership across operations, reliability, regulatory compliance, and digital innovation.

[View Signature Projects](#)
CURRENT

Greasing Planner (Supervisor)

Tontrac Plant and Engineering LTD • Accra, Ghana

March 2026 – Present

Leadership & Operations

- • Supervise daily lubrication & preventive maintenance for mobile and fixed heavy-duty equipment
- • Lead field teams to improve equipment availability and minimize unplanned downtime
- • Enforce rigorous HSE standards and mentor technicians

Digital Transformation & Analytics

- • Built centralized MySQL database for equipment, lubrication schedules & maintenance records
- • Developed interactive Power BI dashboards for real-time KPI monitoring
- • Enabled data-driven maintenance planning and predictive insights

Fuel Officer

i Engineering Ghana Limited • Accra, Ghana

April 2025 – July 2025

Fuel Logistics & Operations

- • Managed multi-site fuel logistics, inventory reconciliation & consumption analysis
- • Coordinated daily supply planning, deliveries & inter-site transfers
- • Ensured uninterrupted operations across telecom infrastructure

Data & Compliance

- • Monitored CPH/CPD metrics and produced analytical performance reports
- • Conducted site inspections of fuel storage & handling systems
- • Maintained documentation for regulatory transparency

National Service Personnel – Regulatory Support

National Petroleum Authority (NPA) • Accra, Ghana

September 2023 – December 2024

Regulatory Inspections

- • Participated in inspections of **420+ LPG facilities** (cylinder exchange points, outlets & bottling plants)
- • Evaluated facility conditions, documentation & operational practices
- • Supported identification of non-compliances and corrective actions

Systems & National Impact

- • Designed Excel-based monitoring databases & CRM tracking platforms
- • Contributed to CNG adoption framework and gas infrastructure policy
- • Supported safety awareness and stakeholder engagement initiatives

Signature Projects & Innovations

Technical initiatives that demonstrate my ability to combine engineering fundamentals

with digital tools and strategic thinking.

DATA & ANALYTICS • 2026

Maintenance Data Management & Analytics System

Designed and implemented a centralized MySQL database and interactive Power BI dashboards for equipment records, lubrication schedules, and maintenance history. Automated validation and reporting, enabling predictive maintenance planning and real-time operational visibility.

MySQL Power BI Predictive Maintenance

LPG CYLINDER RECIRCULATION

Status of Facilities in Ghana

FACILITIES APPROVED:

APPROVED: 2

REJECTED: 0

PENDING: 2

FACILITY NAME	FACILITY TYPE	FACILITY LOCATION	APPROVAL STATUS
MPL GH LTD	MPL GH LTD	CUNDIING	PENDING
AFRICAN PETROLEUM	MPL GH LTD	CUNDIING	PENDING
PETRO GAS	MPL GH LTD	CUNDIING	PENDING

REGULATORY SYSTEMS • 2024

Cylinder Recirculation Model (CRM) Monitoring Platform

Built a sophisticated centralized Excel-based monitoring system to track hundreds of LPG facilities under Ghana's CRM policy. Implemented automated validation, real-time status tracking, and reporting that improved regulatory oversight and policy implementation efficiency.

Advanced Excel Process Automation Regulatory Compliance

ENERGY TRANSITION • 2024

Compressed Natural Gas (CNG) Adoption Framework

Conducted comparative international policy analysis and supported the design of regulatory frameworks and infrastructure plans for CNG refueling stations and distribution networks in Ghana. Guided by senior leadership at the National Petroleum Authority Gas Directorate.

Policy Research Infrastructure Planning Sustainability

Drilling poptimization

SIMULATION & MODELING • 2023

MATLAB Drilling Equipment Optimization

Developed advanced MATLAB simulation modules to optimize bi-directional oil and gas drilling equipment performance. Simulated reservoir behavior and drilling fluid properties to enhance decision-making and drilling efficiency in exploration scenarios.

MATLAB Reservoir Simulation Optimization

Technical Arsenal & Competencies

TECHNICAL & DIGITAL

Advanced Excel & Dashboards
Power BI
MySQL
MATLAB
ITSM Platforms
Asset Integrity Management
OPERATIONS & RELIABILITY
Lubrication & Maintenance Planning
Heavy-Duty Equipment Supervision
Fuel Logistics & Inventory
Field Inspections
HSE Standards & Culture
LEADERSHIP & STRATEGIC
Team Supervision & Mentoring
Regulatory Compliance
Stakeholder Engagement
Data Storytelling
Energy Transition Initiatives

Education & Credentials

Bachelor of Engineering (BEng) in Oil and Gas Engineering
All Nations University, Koforidua, Ghana • 2018 – 2024
Public Relations Officer, Oil & Gas Engineering Department
Professional Development
Oil and Gas Industry Operations and Markets – Coursera (2024)
HSE Engineering – In Progress (Coursera)
API 570 / 510 / 653 – Planned
ASNT UT Level I – Planned

Let's Build Something Reliable Together

I'm passionate about driving operational excellence, regulatory integrity, and sustainable energy solutions. Open to roles in oil & gas, energy, mining, and industrial reliability.
